

**AQUACHEM LTD, LEADERS IN THE FIELD OF
DISINFECTION**

Sanosil S010 disinfectant is the most effective against human coronavirus COVID-19

**Disinfects with Sanosil S010 and removes the threat posed by
viruses, including the human Wuhan coronavirus.**

Sanosil S010 has demonstrated its viricidal efficacy in accordance with the requirements of the UNE-EN 14476 test, making it suitable for eliminating the human coronavirus COVID-19. **Sanosil S010 eliminates the pathogen in just 30 minutes** after application to any surface or object. In addition, our disinfectant is effective for the decontamination of environments through its application in the form of mist or vaporization. Sanosil S010 leaves no chemical residue. Swiss Efficiency and Quality since 1982.

AquaChem Ltd are the sole distributors of Sanosil products in Ireland. We have a stock of S010 and S006 chemicals.

We carry a range of foggers and can recommend a reputable partner to work with our customers for fogging or deep cleaning.
